

IDEAS FOR THE ENTERPRISE AHEAD.

Practical executive conversations at the intersection of enterprise applications, HR technology, transformation delivery, people leadership, and responsible AI.

SIGNATURE THEMES

- 01 **Building an AI-enabled enterprise delivery model**
- 02 **Scaling global capability without diluting quality**
- 03 **Responsible AI governance for enterprise application teams**
- 04 **The future of HR technology leadership in the GCC**
- 05 **From integration architecture to transformation strategy**
- 06 **Building ownership and leadership in consulting practices**

PERSPECTIVE

Sumeet combines hands-on enterprise technology credibility with delivery, practice, customer, and people leadership. His sessions focus on practical operating models, real decisions, governance, and measurable enterprise value - not technology novelty alone.
